Subject: Tax Hike - Public Hearing Testimony

Dear Senator Fasano and Representative Klarides:

The failure of the Legislature in The State of Connecticut to pass a balanced and sustainable budget as required by law is a affront to all taxpayers in the state. There are many reasons why we need to stop additional taxes from being pushed upon both the businesses and the citizens of this state. The fact that the economy of Connecticut has been the most stagnant in the country, is just more proof of what the failed tax and spend policies of this state have brought to us. As a man who worked without being unemployed for over 40 years in this state, to find that getting laid off for lack of work was a end to a career of dedication and steadfastness to the companies he worked for, I can state that it was the policies of the Government of Connecticut that have forced me to apply for early retirement and I see by the failing of this legislation, that it will not get any easier to live here in Connecticut. You politicians have ruined the once stable economy and great living conditions for the people of Connecticut, and I can only look forward to finding another state that cares more about the state of well being of it's residents.
