Dear Senator Fasano and Representative Klarides:

This is getting out of control. My husband and I have had our own business since 1986. We are small business owners. Since we began our business, we have been subjected to ridiculous tax increases and other business adverse legislation by the state of CT. With the exodus of large corporations to more business-friendly states, small businesses are asked to bear the burden of too many entitlements. Small businesses are the major employers and job creators. If you continue to tax us we cannot grow and create jobs. Jobs are what get people out of the cycle of unemployment and the need to use public assistance.
