Subject: Tax Hike - Public Hearing Testimony

Dear Senator Fasano and Representative Klarides:

As a retired educator in Connecticut, I have so many concerns as to how our Legislature conducts their business. I am neither a Democrat or a Republican and it truly upsets me that our government is set up with such differing opinions and purposes..

Who represents me?? I hardly think the 3 milion plus CT state residents would condone any NEW tax hikes.....give me a break....

PLEASE stop giving our tax dollars to those who "choose" to either not work or live with mistakes they have made and we pay the price.....Connecticut has, for too long, given money away to too many residents.....I worked my entire life and I don't appreciate the legislature continuing to "give our tax dollars" to lazy unwilling to work people.....ENOUGH Of this.
