Subject: Tax Hike - Public Hearing Testimony

Dear Senator Fasano and Representative Klarides:

I oppose any tax increases in CT. Gov. Malloy awarded up to 12% pay increases to political appointees for an annual cost of \$1.4M- this, in light of a budget deficit. Even generous corporate raises hover at 3% if awarded at all. The accounting error that he blames on the accounting firm is HIS responsibility. There should be consequences to Gov. Malloy for his mismanagement and poor oversight. He also wants to fund new transportation proposals without fixing the infrastructure. Reappropriate those funds in place of tax increases. Trees along I-84 have been clear-cut and have reduced the beauty of our roads - at what cost and for what purpose? Control Gov. Malloy's spending.
