

## It's Time to Speak Out

---

May 7, 2015

To Whom It May Concern,

I bought a small business in CT and moved here from TX four years ago. It is my goal to grow my small company by 5-10 times in ten years. I have been shocked at the confiscatory mindset that permeates the political scenery ever since I arrived. It further metastasizes with each legislative session. Frankly, I don't see an economic future for CT and will move my company as soon as practical.

Regrettably, I feel certain CT is on a path to the same failed social democratic posture that is eroding already tenuous economies around the globe.
