Subject: Tax Hike - Public Hearing Testimony

Dear Senator Fasano and Representative Klarides:

Hello,

The people of this state can barely afford to live here as it is. Businesses are fleeing? Utilities are constantly asking for rate hikes because people can no longer afford their bills and are not paying them. My family has been contemplating moving out of state because of this administrations policies. Places such as OK, where I would see a 25% salary increase. TX where I would see a 40% salary increase. Or SC where I would see a 30% salary increase. All of these states I would also be paying less than half of the taxes I pay now. Connecticut residents are not stupid we know the grass is greener on the other side now. We know higher taxes further the states problems. We know those in power despise us. CT needs to follow the motto of Red States or were going to be in the same Financial distress as Detroit with the crime of Chicago and the regulations of California. All of which are areas where people and businesses are fleeing as well. Wake up! There's no reason to destroy a state.
