Subject: Tax Hike - Public Hearing Testimony

Dear Senator Fasano and Representative Klarides:

Raising taxes again is not the answer. Many young people are leaving the state, after graduating college to find work in states that have jobs and a lower cost-of-living. Without jobs and other incentives to keep young people here, those paying taxes are dwindling while numbers of non-taxpayers are growing.

Spending more and more money on social programs, that in my mind, are designed to buy votes for the Democrats. Our schools are becoming day care centers, no longer educational institutions. Free school breakfast, lunch, and dinner - six and seven days a week, including winter and spring breaks and throughout summer vacations, should not be part of a school program. Meals should be served at home by the parents that are supposed to be responsible for the costs of raising a child.

Malloy's infatuation with the criminal alien population needs to end. These people are a drain on the economy. None of these people deserve any tax payer funded benefits, especially in-state tuition. Their families pay little or no taxes and yet reap benefits paid for by hard-working people that are taxed to death.

The busway, or what I call the Dannel P. Malloy Memorial Busway, is an example of out-of-control spending. It is an albatross that will become a expensive bike path.

My wife and I are approaching retirement and are questioning whether or not we can afford to retire in Connecticut. In Wallingford we enjoy a fairly low mill rate, but still could see our property taxes go up to the point that we could not afford to pay on a fixed income. That would mean selling the property we love, forced into a condominium or moving out of state.

It is time to face the facts, that Malloy and the Democrat controlled CT Legislature, have dug a hole so deep that there are no ladders long enough to help Connecticut climb out of.

I end with a quote by Dr. Michael Savage, talk show host: "Liberalism is a mental disorder."
