Subject: Tax Hike - Public Hearing Testimony

Dear Senator Fasano and Representative Klarides:

From entity taxes, admission taxes, and more, there are far too many taxes imposed on businesses now. Adding a multitude of services to the tax burden of taxpayers is going to force even more people to leave this state and more potential employers to avoid it. We need to create jobs and an attractive environment for new employers. We don't need to create more empty stores, office buildings, or factories.
