Subject: Tax Hike - Public Hearing Testimony

Dear Senator Fasano and Representative Klarides:

For the most recent 25 of the 48 years we have lived in Connecticut I have watched in dismay as the "needs" of our state government and it's ravenous public service unions have driven away all our most successful neighbors, and the state has fall from being among the most successful and habitable states to among the worst by every measure. Won't you please STOP before imposing total destruction? The solution to the budget issues clearly cannot be MORE taxes and FEWER taxpayers.

Having devoted decades to uncompensated public service it is heartbreaking to see the needs of the greeds destroy all that we have worked for.
