Subject: Tax Hike - Public Hearing Testimony

Dear Senator Fasano and Representative Klarides:

I am so sick and tired of the tax increases, the mess that CT is in. Who is going to help the people? I can't afford to live here anymore...worst place to live at this point. Can't believe anyone's promises. All talk, no action to help the people. At this point, I'll probably end up losing my home. I just can't do it anymore...can't refinance, no equity, no help...even though OBAMA says there is help...not true...another lie...and then...raise the taxes again to fix all the mistakes that were made...keep blaming and pointing fingers...that really helps everyone.
