Dear Senator Fasano and Representative Klarides:

why must I have to keep working more and more hours to pay for all my bills. yes I went to school and now have a job, but I still have to work more and more. When a lot of people do not want to invest in themselves to move up the pay ladder. None of my kids qualify for any federal or state college grants, so I now have to work more hours to pay for the college costs. I know a lot of people the have either moved to Florida or to South Carolina and Nevada to have a better tax structure. If we keep taxing the people who can pay they may not be here for long. We keep raising new and more taxes but we do not cut any spending. So now we are in another fiscal hole that we seem never to get out of. Seniors that are not tied to any job any more will not be able to keep paying for these increase then to add to their capital gains. Yes let punish them more for saving for their retirement.
