**Subject:** Tax Hike - Public Hearing Testimony

Dear Senator Fasano and Representative Klarides:

I believe that the state budget could be cut by at least 10% and we could still run the state. If all state employees knew that there was going to be 10% less in their dept budget, they would find a way to cut waste. We also need to take a good look at welfare benefits. I want to see people who really need help get it, but also if many of the people getting state benefits knew that they would get less or none, and that the state would be firm in this stand, many of them would find work. We have created a welfare class that has no idea how to find work or help themselves. It is time they learned.
