Subject: Tax Hike - Public Hearing Testimony

Dear Senator Fasano and Representative Klarides:

Please no more taxes. The state needs to live with what they have . Control your spending and stop the handouts. People must learn to be responsible for themselves and it should start with the government. I can't go to my boss and tell him he needs to give me more money because I need a new roof or car. I must BUDGET properly. Stop telling your boss ,we the people, that you need more money.
You must stop the spending now.

Stop building new magnet schools and use some of that money to support the regional schools you already built.
Thank you Michael Zator
