**Subject:** Tax Hike - Public Hearing Testimony

Dear Senator Fasano and Representative Klarides:

Why is it always the democrat liberals that want to increase taxes instead of cutting costs? Stop spending, period! Why can't they offer cost cuts at the CT government level; there is so much fat, extras (earmarks) and overspending that goes on that never gets addressed! I suggest they let the public help them trim there costs by offering us the opportunity to review and approve the state budget, since they can't seem to do that I can guarantee the public will cut costs real fast! STOP SPENDING!
