Subject: Tax Hike - Public Hearing Testimony

Dear Senator Fasano and Representative Klarides:

It is a known fact that Ct is one of the highest taxed states in the country. Businesses are moving out because they can't afford it and the middle class is being squeezed out of existence. Shame on everyone of you who that represent this state, who think this is a good idea. Have any of you thought about taking a pay cut or foregoing your pay raise? Our senate and house representatives have never done their job for the working class. Maybe it's about time they earn their pay.
