Subject: Tax Hike - Public Hearing Testimony

Dear Senator Fasano and Representative Klarides:

Dear Governor Malloy,

As an emergency medicine physician at Danbury Hospital I have seen first hand how your tax increases on CT hospitals have hurt our patients. There is no budgetary fat left to cut, only muscle. The quality of care and services to those who need it most are being hurt by your repeated tax increases on hospitals. You are hurting the people you were elected to serve at their time of greatest need and vulnerability. While I understand that these are difficult economic times, I implore you to reconsider your approach of increasing hospital taxes yet again.

Sincerely,
Reed S. Idriss, M.D.
