Subject: Tax Hike - Public Hearing Testimony

Dear Senator Fasano and Representative Klarides:

I truly believe that the government of this state needs to make cuts to state employees salaries and pensions as well as welfare in order to balance the budget. Stop passing the debts on the to taxpayers, we are drowning as it is because unlike state employees or welfare recipients, we don't make large salaries, or free money, we don't have great pensions or free healthcare to rely on in retirement. We have to work hard to save for our present existence and our futures. You need to stop taking a nickle or more from every dollar we earn and spend! I get taxed on my pay, then taxed on the things I buy, then taxed yearly on my property, when does it end!!! This system is broken. Stop giving state employees such great pay and benefits and while you're at it stop giving people who are able bodies to work welfare, all of it is madness!!! Make those who make a living of welfare get jobs, starve or leave. Give them the state jobs, at reduced as well as reasonable pay rates. I'm tired of carrying all of you freeloaders. I'm tempted to become an illegal immigrant myself, they seem to be doing the best in our country lately, they at least get to skip the income tax portion of our insane tax to death country and state!
