Subject: Tax Hike - Public Hearing Testimony

Dear Senator Fasano and Representative Klarides:

Governor Malloy said "Revenues are not growing as rapidly as expenses are, I think that's been true over the last five years and is likely to be true over the next five years."

Frankly, that is a very scary statement and sums up what is wrong with this administration and the philosophy of the legislature that has been controlled by a Democrat majority for decades.

In his first term the governor imposed the largest tax increase in the history of our state. Now they want to raise taxes another 2.4 billion dollars.

We need a change in direction, a change in philosophy. We need to reduce the size of government, make cuts not raise taxes.

I support the alternative budget that has been put forth by the Republicans.
